NEGOTIATIONS

The University of the Sunshine Coasts' Negotiation Competition provides students with an opportunity to focus on their practical legal skills.

The competition involves two teams, discussing a dispute until they reach a settlement. Both teams are provided with individual instructions from their clients explaining their preferred outcome that the team should aim to achieve. Teams will then be provided with valuable feedback from the judges.

Negotiation is a fundamental skill for those in the legal profession, and this competition will provide students with valuable, real world experience. Students are also able to build relationships, and network with some experienced practitioners.
